

Polar Bear

PRODUCT NAME:
Polar Bear 1 kilo silver coin

COLLECTION:
Ultra High Relief

ISSUING COUNTRY:
Republic of Liberia

PRODUCT DESCRIPTION VENDOR ANNOUNCEMENT

Fonson is proud to announce our exceptional high-relief coin evoking the majesty of the Arctic, a tribute in solid silver to the world's largest bear. The coin honours the polar bear in remarkable detail, hand sculpted with lifelike precision.

The obverse features the commanding presence of the polar bear, its powerful features brought to life through an extraordinary high-relief technique. Every detail, from the piercing gaze to the rugged texture of its fur, has been carefully crafted to create an awe-inspiring collectible, unlike any other coin on the market today.

The reverse design captures a mother polar bear with her cub navigating the icy terrain, a scene that has grown increasingly rare due to climate threats. This fitting design serves as a timeless reminder of the beauty and fragility of our planet's Arctic wilderness.

The polar bear 1 kilo silver coin is packed in a stylish leatherette box, complete with a Certificate of Authenticity.

Discover our "Ultra High Relief" collection and you will discover that high relief means something different at Fonson...
