PRODUCT NAME:
Tower Bridge 5 oz silver coin

COLLECTION:
World's Famous Bridges

ISSUING COUNTRY:
Republic of Congo

PRODUCT DESCRIPTION VENDOR ANNOUNCEMENT

After our successful Brooklyn Bridge coin, the next release is dedicated to the equally famous "Tower Bridge" in London.

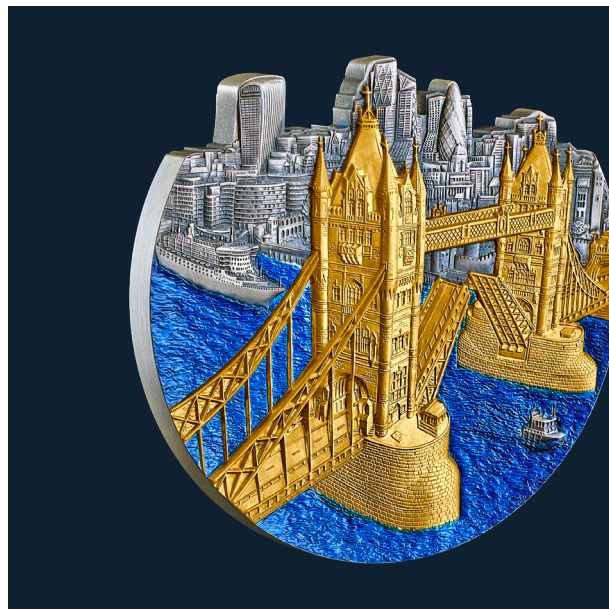

This exquisite coin was created from traditionally hand-sculpted plasters and is delicately shaped according to the London skyline and features a beautiful view of the Tower Bridge, with the City of London in the background. The bridge has been accented with 24 carat gold, with details in high relief. At the bottom of the design, the river Thames is depicted and highlighted with blue enamel coating. On the left, we can see a gilded representation of RMS Queen Mary II making her way towards Tower Bridge. The reverse of the coin depicts a detail of the London Dragon, one of the two bearers of the City of London's coat of arms, as well as the Coat of Arms of the issuing authority, the year of issue and the denomination.

Fonson is a P. De Greef brand

Marvellously crafted, this beautiful coin is destined to become one of the most remarkable commemorative coins, making it a coveted treasure for collectors and enthusiasts alike.

Delight in the stunning, timeless elegance of our "World's Most Famous Bridges" collection!
